

Payment methods

GENERAL INFORMATION

We offer you the following payment methods. Just choose the type of payment that is ideal for you. Shipping costs depend in part on the weight and the country of destination. The prices quoted in the respective offers represent final prices. They include all price components, including any incurred taxes such as VAT. Only in the case of cross-border delivery can further taxes (e.g. in the case of intra-community acquisition) and levies (e.g. customs duties) have to be paid by you, but not to the seller, but to the customs or tax authorities responsible there. The applicable delivery and shipping costs are not included in the purchase price, they are available via the "shipping costs" page, they are shown separately during the order process and are to be borne by you in addition.

PREPAYMENT

We will request payment by e-mail or fax, etc. Please transfer the total amount to the designated account. Shipping can only take place after payment has been received by us.
