

# ASSEMBLY GUIDE

## RH SECOND LIFE KIT FOR BMW K1200 RS / GT / LT MODELS

When assembling the RH Second Life Kit into the BMW motorbike models K1200 RS / GT / LT the following steps are required in addition to our standardized assembly guide. Please use the fixtures included in our delivery and assemble the kit as described.

- 1 See standard installation instructions.
- 2 The RH Second Life Kit shall now be installed using all original fixtures and brake lines. At the bottom the kit stands on a gummosis in the tin tub.
- 3 Now connect the two tubes of the reservoir bottle using the connector included in our delivery as shown in pictures 3 and 4. These tubes will not be needed anymore but they have to be lined up precisely so that the reservoir bottle won't leak!
- 4 See standard installation instructions points 2 - 7
